Single Copy, Five Cents

Major-General A. G. L. McNaughton, general officer commanding the 1st Canadian Division C.A.S.F., shown above in a photo taken as he reviewed the 4th Highlanders in Toronto, arrived in Edmonton Friday morning and at 10:30 a.m. inspected the 92nd and 111th Batteries Royal Canadian Artillery. He is touring the west inspecting all units forming the Division.

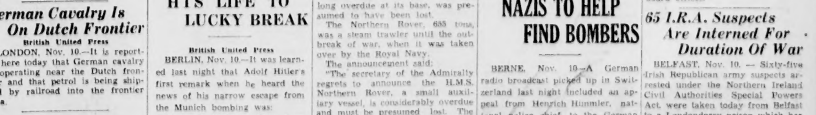

The Divisional Commander is accompanied by Brig. G. R. Fraser, V.C., D.S.O., M.C., after commanding Military District No. 12 with headquarters at Calgary and commander of the 3rd Brigade of the 1st Division; Col. E. W. Hanson, quartermaster of the 1st Division and Lieut. Col. G. R. Turner, staff officer, Ottawa.

Promptly at 10 a.m. Maj. Gen. McNaughton commenced his inspection of the 4th Highlanders and the Prince of Wales Army instead of in the open on Kingsway as previously planned, owing to arrival of cold weather.

Lieut. Col. E. Brown, M.C., Garrison Commandant and other Garrison officers previously had conferred with Maj. Gen. McNaughton and were present at the inspection. The 92nd Battery was under command there, was a full unit and was inspected.

Nobel Prize

STOCKHOLM, Nov. 10.—The Swedish Academy today awarded the 1939 Nobel prize for literature to Franz Werfel, Austrian author.

AGREEMENT ON BACON EXPORTS TO U.K. NEAR

Shipments to Britain in 1940 Will Likely Be Third Higher

By GRANT DEXTER
Edmonton Bulletin Ottawa Bureau
OTTAWA, Nov. 10.—Negotiations between the British and Canadian governments regarding exports of bacon to Britain during the war have reached a point where an agreement appears certain.

Britain, it is learned, will probably agree to take 300,000 long cwt. of bacon in 1940 which will be an increase of about one third over shipments this year. The price of the meat is not yet agreed but it is thought certain that the British will be paying price levels far below those in the open market.

To carry out the agreement it is generally believed that a Dominion board will be appointed under the War Measures Act. The existing agricultural supply board, headed by Dean A. M. Shaw is chairman, may be given the job. But whether the job will be assigned to the Shaw committee or a new board is not clear.

REGULATE PRICES

This board will regulate prices of foodstuffs to consumers and the charges of middle men, packing companies and others, so that profiteering will be kept down. It may be, according to experts, the highest domestic price level necessary to carry the export trade and to give adequate return to producers. If successful, it will give the government a new source of revenue.

An announcement of the agreement from Ottawa as such an agreement on price has been reached in London.

VETERAN FIRE DOG VICTIM OF HIT-RUN DRIVER

NEW YORK, Nov. 10.—For 19 years "Nigger" Brown guarded the door of the fire department in Brooklyn. He won three medals for saving lives.

A motor car struck the dog in the street last night and sped away without stopping.

The crippled dog dragged himself back to the station and stumbled on to the door of the fire department.

He was found by a patrolman and taken to a veterinarian to help him.

FRENCH THINK "BIG BLW" IS POSSIBLE SOON

Conviction That German Offensive Is Near Strengthened

By AXEL DE HOLSTEN
Hague Staff Writer

PARIS, Nov. 10.—The violence of localized fighting and the aggressiveness of German vanguard units on the western front today strengthened the conviction that a German offensive is near.

A French general said a "big blow" is possible and that the French army is braced for any eventuality.

This morning's official communiqué from the French high command stated that German troops had been brought in out of the rain from a "big blow" is possible.

The communiqué stated that German troops had been brought in out of the rain from a "big blow" is possible.

Germany May Invade H

French Planes Prove Superior to Vaunted German Messerschmidts

HOSE MISSES DUMMY, HITS U.S. ATTORNEY

Guard Fails His Mark While Demonstrating How Lashes Given

RAN QUENTIN, Calif., Nov. 10.—A prison guard missed a dummy and struck an attorney Thursday when he demonstrated how unruly convicts were punished by lashes with a length of hose.

The incident occurred at Governor's Hall in Ontario, where charges against the state board of prison directors. The board was charged with incompetence after investigation developed accusations that many San Quentin convicts had been lashed severely for participating in a food strike.

George T. Davis, attorney for the prison directors, introduced a demimailed dummy and received the governor's permission to stage a flogging exhibition. He wanted to disprove the testimony of Timothy Lee Bell that it took three minutes to administer 10 or 12 lashes to a prisoner's back.

Davis stepped on a chair and held the dummy up by the neck, then the blow went high and struck squarely over the back of Davis' head.

Davis jumped from the chair and charged it was "a deliberate attempt to strike me."

The governor quieted things eventually.

HUNGARY NOW WILL FORTIFY RUSS BORDER

BUDAPEST, Nov. 10.—War Minister Charles Bartha said the Chamber of Deputies Thursday Hungary had started construction of fortifications along her new frontier with Soviet Russia.

"Territory acquired by Russia in the partition of Poland gave the Soviet a common frontier with Hungary for approximately 100 miles southeast from the San River to the Rumanian border."

"We now have a common frontier with the Soviet," deputies quoted Bartha as saying. "It is now necessary to build fortifications. Those have started on a small scale but will be built up completely in the spring."

Bartha's announcement coincided with arrival of Italian General Enrico Ricciardi in Budapest. Italy has shown friendliness toward Hungary since government.

Red Cross Helping European Refugees

TORONTO, Nov. 10.—Norman Sommerville, national chairman of the Canadian Red Cross Society, said last night supplies and funds for refugees in occupied territories in Europe are crossing the Atlantic in increasing quantities every week.

Who's Got The Mutton?

And the answer is this smiling member of the Women's Auxiliary Territorial service, and her particular duty of the moment is to deliver this carcass of mutton to the kitchen.

Irish Republican Army Members in Eire Prison Staging Hunger Strike

NEW PREMIER STARTS WORK WITH CABINET

DUBLIN, Nov. 10.—Prime Minister De Valera last night told the Dail (parliament) that some of the Irish Republican Army members in prison in Eire "are in imminent danger of death" as a result of a hunger strike.

Replying to protests from Labor members over imprisonment of 60 persons under provisions of the "Offences Against the State" act, Mr. De Valera said:

"Because of the reasons which I need not make a statement to, because some of these men are in imminent danger of death."

There are no powers by which the government can secure the safety of the people here except by powers of arrest and detention against those who are in a position to bring about a disaster.

"The policy of the hunger strike is aimed at taking away that means from the government, and once that means is taken away what will happen is obvious: We are going to have an organization to such an extent that the only way in which the supremacy of the people can be established is by arms."

We know perfectly well that if arms have to be used, many lives are going to be lost, and that the only way left to prevent that is by having a strong government which has been able to maintain those who have been on courses which will undoubtedly lead to disaster.

HAVE ARMS AVAILABLE

"We all know there is a body in this country with arms at its disposal. We know that within the last year its activities have taken a new turn. It has definitely proclaimed itself entitled to exercise the powers of the government here to act in the name of the people and commit our people even to war."

Campbell States Good-Will of U.S. Is Appreciated

BOSTON, Nov. 10.—With Canada at war, Canadians never before have appreciated the good-will and friendliness existing between the Dominion and United States.

Premier Phineas A. Campbell of Prince Edward Island said in a speech Thursday.

Two fortifications of peace, Premier Campbell said, had made possible the complete lack of fortifications of war between the two countries. The first was the mutual hatred of force as a means of settling disagreements. The second was an abiding respect for the rights, opinions and thoughts of the other nation.

No Big Profits For Anybody In War, Says Greenly

OTTAWA, Nov. 10.—Lester Col. J. H. Greenly, controller-general and chairman of the British supply board, said today that the United States and British supply purchases of war supplies in Canada will not mean fancy profits for anybody.

"We intend to place our orders with the most efficient contractors and at reasonable prices," said Col. Greenly. "We shall pay no more prices that will mean fancy profits."

He said encouragement would be given in every proper way to Canadian industry because the United Kingdom is anxious to have the minimum defense manufacturing facilities in the Dominion.

Paderewski Sends Wish For Success To Polish Leaders

PARIS, Nov. 10.—The Polish government in France Thursday sent a warm telegram to Ignace Paderewski, famous pianist and former Polish premier, on his 60th birthday.

In his reply the musician-statesman said: "I am happy in the twilight of my life to receive the good wishes. May God help you to the fulfillment of your heavy task and grant his benediction to the work for the restoration and rehabilitation of our fatherland."

DEPENDENTS' ALLOWANCES RULES GIVEN

Regulations Outlined By Defence Department Spokesman

OTTAWA, Nov. 10.—A defence department spokesman said last night the financial regulations of the Canadian active service force prevent payment of monthly dependents' allowances to dependents of soldiers receiving remuneration from a public authority which is in excess of the allowance.

However, if the remuneration is less than the allowance, the Department spokesman makes up the difference to bring the total to the amount of the allowance.

The spokesman was commenting on a Calgary report that refusal of the government to pay regular allowances to a Calgary soldier's wife because the city also is giving her an allowance may result in disavowal of Calgary's payments to wives of enlisted elite employees.

Section 102 of the C.A.S.F. financial regulations, which are used by the Dependents' Allowance Board, reads:

"No allowance shall be granted where the applicant is employed in any form from a public authority and such remuneration is in excess of the maximum monthly allowance which may be authorized by these regulations. But an allowance to the comparative total may be granted when such remuneration is less."

NO WAR LOANS IN AUSTRALIA AT THIS TIME

By J. D. HOLDSWORTH
Canadian Press Correspondent
SYDNEY, Australia, Nov. 10.—The Australian loan council, representing the commonwealth and the six state governments, met today to discuss war financing and decided not to begin the issue of war loans at this time.

Australia's war commitments already undertaken are estimated to cost \$90,000,000 (about \$300,000,000 in full year, according to 10 per cent of the national income).

The government proposes to raise a large proportion of its war costs from taxation. This is felt to be a large part of the economic stability provided by internal defence expenditure plus the sale of loans in the market and sufficient.

Father Of Grande Prairie Men Dies

VICTORIA, Nov. 10.—Arthur William Curwen, 77, native of Port Hope, Ont., and pioneer of Grande Prairie, Alta., died here Wednesday. He came to Victoria 10 years ago. Robert H. and Gerald V. Curwen of Grande Prairie are sons.

Internal German Division Blocks Reich Win Over Powerful, United Allies

LONDON, Nov. 10.—Internal German division, as indicated by the Munich news, has exploded, blocks a Reich victory over the powerful and united allies, the News Chronicle said today.

"There is really no reason to doubt that the explosion was of whom are believed to have found their way into the Gestapo, and that from their point of view Hitler's escape was just a piece of pure luck," the newspaper said.

GO ANY LENGTHS

"It is certain that there are people there who are prepared to go to any lengths to overthrow Nazi tyranny. A nation which is so deeply divided can hardly hope to wage a successful war against united and powerful allies."

The Daily Telegraph said that Hitler's life had been endangered from abroad.

"In every country but Germany the spectacle of the Nazi leaders plotting that the attempt on Hitler's life had been endangered from abroad."

SHIP TRANSFER PROBLEM IS UP TO ROOSEVELT

WASHINGTON, Nov. 10.—The proposed transfer of eight United States lines ships to the Panama flag, under which they could visit all ports open to American vessels, was up to President Roosevelt today as neither State Secretary Cordell Hull nor the maritime commission showed any sign of changing their conflicting views.

Mr. Roosevelt waited by telephone late Thursday with Mr. Hull, who was reported maintaining his position the proposal should be turned down, but it gave even the appearance of nullifying the new neutrality act. In fact, even the president was entitled to a frank expression of his views if he wanted them.

The maritime commission approved the transfer earlier this week and then held up final action at the president's request.

Tories Won't Seek 2 Montreal Seats

MONTREAL, Nov. 10.—J. A. Giguere, secretary-general of the Conservative party, said today that the Tories won't seek two Montreal seats.

Father Of Grande Prairie Men Dies

VICTORIA, Nov. 10.—Arthur William Curwen, 77, native of Port Hope, Ont., and pioneer of Grande Prairie, Alta., died here Wednesday. He came to Victoria 10 years ago. Robert H. and Gerald V. Curwen of Grande Prairie are sons.

BRITAIN WON'T BUY WHEAT TO RAISE CATTLE

Canadian Crop To Be Used For Human Consumption, Says Secretary

LONDON, Nov. 10.—The government Thursday turned down a suggestion Canada's surplus wheat be used to raise cattle in the United Kingdom. The grain will be used for human consumption, said the secretary.

"Large quantities are being made for shipment to Britain," said Alan Lennox-Boyd, parliamentary secretary to the ministry of food. "The grain will be used for human consumption."

"It is a matter of fact that the quality of the grain is of too high quality for use as feed-stuff," he added. "The greater part will go to provide cheaper cattle feed for British farmers."

British and foreign buying of Canadian wheat has diminished in the last few months. According to a recent official report, 351,485,000 bushels of the grain were bought by Canadian elevators on Nov. 3, in an effort to relieve the worsening situation. Canadian government officials are seeking to have the British government increase its purchases.

LAUREL NEEDS BODYGUARD TO HOLD OFF WIFE

LOS ANGELES, Nov. 10.—Comedian Stan Laurel charged Hilma Laursen, Russian dancer and singer, is attempting again to "prey" by her fraud and deceit, as he said, to uphold his divorce.

Laurel filed an affidavit denying the charge of tormenting her with depredation, of striking her several times and including in other information to compel her consent for a default divorce decree.

Laurel said he had to employ a bodyguard to protect himself against Hilma, who weighs 170 pounds, and her former manager, Frederick S. Von Berger, who weighs 240.

Hearing on Mrs. Laurel's petition to set aside the divorce was deferred until Nov. 21.

Edna Best Plans Marshall Divorce

HOLLYWOOD, Nov. 10.—Edna Best, English screen actress and wife of Herbert Marshall, confirmed last night reports that she intends suing for divorce. They were married in 1929.

Crews for submarine duty are picked with the utmost care and trained to the last word in efficiency and preparedness.

The tobacco for Player's Cigarettes, too, is selected with exacting care, for it is the tobacco that counts. And the famous sailor every packman proclaims that its contents were manufactured in accordance with Player's traditionally high standards.

Player's offer you the choice of two great cigarettes—"Medium" or "Mild". Choose the one which suits you best.

Player's Please

MILD—plain end, "wetproof" paper, that does not stick to the lips.
MEDIUM—cork tip or plain.

Let us forget our Veterans, with a poppy. Remembrance Day. November 11.

IT'S THE TOBACCO THAT COUNTS

Socks for Style-Minded Men

When it comes to choosing from an outstanding array of socks—just ask your dealer to show you Penmans. The new socks are the smartest in Penmans long history—smart in their unusual colour and pattern ideas. Many inspired ultra-modern designs offer a choice that will enable you to complete an all-season sock wardrobe. You'll wear them longer, because they're Penmans quality.

"gentlemen prefer" Penmans socks

Raising A Family

Buddy hates books. How can we get him interested? By:
A. Reading to him.
B. Telling him it will make him intelligent?
C. Filling up his book shelf with classics?
D. Watching his pet bobolinks and buying him books that will help him?
E. Using some built-in knowledge and his attention with rattling good stories of adventure?
It must be remembered that we are dealing here only with a boy who won't read, who doesn't like books at all and is letting the weeks and months go by without opening a cover. He is not the usual child, but the one who openly declares he hates books and won't have anything to do with them. I know such a boy now, and have known many in my time.

O R Burton
The important thing about this whole matter is to establish a habit of turning a book on one turn to a friend. A book teacher, if education, entertainment, explanation and, as the case may be, and life, later on, is going to depend it on reading. The book habit, unless it starts out everything else, is a fine one.

At long last I reach my answer. "E." Get this doubting Thomas over his suspicion of books. That must come first. In order to do this, I believe that reading adventure and stories comes first.

They need not be "classics." Certainly they must not be shallow, or deep or hard to understand. If that is going to be his first bite into literature, he will shut the book. The plate, so to speak, is he does not care for terrapin in shell and go to sleep.

Not that classics are dull or that fine books today are slow reading. The more I see of new children's books every year, the more I begin to realize that adult literature has a long way to go.

I have seen several hundred of this year's books for children. They are beyond words. The dullest subject is made into a story and romance to catch the interest and hold it breathlessly. Not only are old classics good, but the new books can be rated thus, in almost every case.

To go back; get this book-teacher first of all, stories of risk and venture. Then add some of his own, whatever they are. Gradually get him interested in historical stories, and "science for children" and people of other lands. What an education it is!

Debunker
COUNTING SHEEP WON'T HELP YOU GO TO SLEEP
Many people have tried counting imaginary sheep in order to go to sleep, but have only continued their wakefulness. It is nothing but an old superstition, according to Dr. Maurice Chickering's recent book on sleep. He puts hypnotism in the same category, and says any of these artificial methods is more

Christmas Should Be Well-Aged

Christmas may seem a long way off, but to the experienced maker of fruit cakes, the longer a fruit cake mellow the better it will be at Christmas. Special recipe for this cake calls for a topping of seedless raisins, brown madder, candied cherries, butter and light cream.

By MRS. GAYNOR MADDOCK
Christmas fruit cake improves with time. Cooks in the know always do their fruit cake baking at far ahead of the 25th of December as possible. For those advanced cooks, this expensive recipe is printed now. For those who will bake later, it can be clipped and saved for the Christmas baking day.

To make a two-ounce gift cake your fruit cake in one of the best-resistant glass canisters. Long after the cake has been eaten, the canister will serve to remind your friends of your practical and generous Christmas thought.

GIFT FRUIT CAKE
EN CASSEROLE
(Baked weight about 3½ lbs.)
One cup seedless raisins, 1 cup uncooked prunes, 1 cup uncooked dried figs, ¼ cup cut citron, ¼ cup cut preserved orange peel, 1 cup halved candied cherries, 1 cup broken walnut meats, ¼ cup thick jelly, ¼ cup orange juice, 1 teaspoon allspice, 2 teaspoons cinnamon, 1 teaspoon nutmeg, ¼ cup butter, ¼ cup brown sugar, ¼ cup white sugar, 4 eggs, 2 teaspoons vanilla extract, 3½ cups sifted all-purpose flour.

likely to produce the opposite results than to help us to go to sleep. Reading in bed, unless we read a terribly dry and uninteresting book is no help either. Many people get worried about losing their minds when they are troubled with insomnia, but Dr. Chickering says, losing sleep has no connection with insanity. The main purpose of going to bed is to rest the body, not the mind.

Tomorrow's Menu
BREAKFAST: Cranberry juice, fried corn meal mush, syrup, crisp bacon, coffee, milk.
LUNCHEON: Kidney beans with tomatoes and green peppers, cabbage salad, boiled dressing, peas, tea, milk.
DINNER: Fricassee of chicken, dumplings, green beans, steamed rice, lettuce and grapefruit salad, buttered toast, coffee, milk.

Dorothy Dix Says: Age, Neglect Combine To Promote Necklace

By ALICIA HART
Routines to keep the neck firm looking as well as satiny smooth should be included in every woman's daily beauty schedule. There are no more certain signs of neglect, as well as age than a crepey throat, sagging muscles directly below the chin, and necklines going around and around.

In addition to careful cleansing (wash your neck each and every time you wash your face) and nightly reaming, of course, do special exercises regularly. These keep the muscles of the neck firm and the skin over them smoothly youthful.

Furthermore, don't give your throat more attention than the sides and back of the neck. Since you no longer wear your hair in a long, bushy bow, rows of lines across the back are as sad a sight as those which extend from side to side.

At night after a bath, pin hair atop head and put on a thin rubber shower cap. Then really cream your neck, massaging the cream in upward and outward strokes and pulling away the lines.

Wives fall out of love with their husbands because their husbands do nothing to keep them in love with them. Wives get tired of playing up to husbands who never show them any personal attention, who never pay them a compliment, or remember an anniversary.

Wives quit loving their husbands when they find out they are tight-wads. It is not life long love that is tired of having to wheedle and cajole and bamboozle the money out of her husband to run the house on. When the area he brings home every cent his family costs him she wonders how she ever could have been in love with such a miserable little thingy.

Finally, many wives lose their love for their husbands because their husbands never show them even common politeness. They never speak to them except to find fault. They say things to them that they would just dream of saying to a good cook or stenographer who could give notice and quit. When wife ceases to love a husband, there is always a reason.

CONTROL BODY FOR EXCHANGE HELPS IN WAR

Canada's War Financing is Aided By Maintaining Orderly Market

OTTAWA, Nov. 10.—Canada's wartime foreign exchange control board has been in operation nearly eight weeks and financial experts, after reviewing board activities, said last night it is making an important contribution to the organization of Canada's war financing by helping maintain an orderly capital market in the Dominion.

The review also leads financial opinion to the following conclusions:

1.—The expansion shown in the official trade statistics for September, and unofficial check-ups on October trade, indicate the board's regulations have not allowed up commodity movements.

2.—The board's ability to maintain stable exchange rates, in contrast to the sharp fluctuations which prevailed during previous periods of stress, has been helpful to those engaged in foreign transactions.

3.—By conserving Canada's foreign resources, the board's actions guarantee an adequate flow of imports vitally needed for war purposes.

Canada's war program requires substantial amounts when materials, machinery and finished goods to be imported from abroad. It was explained, it is the board's job to see that war requirements have first call upon Canada's foreign income — foreign exchange — by Canadians from exports such as wheat, oil, forest products and manufactured goods, as well as from tourist trade and other services rendered to non-residents.

It is possible, financial experts give war requirements priority because all foreign exchange received by residents is derived from whatever source must be used through banks to the board. As a result, foreign exchange is purchased in Canada except from earnings of the board. No export may be made without license from the board.

This, it was said, ensures foreign exchange as a source of funds not withheld by recipients. Similarly, imports must be licensed, which enables the board to verify that exchange paid for by it pay for imports has been properly used.

IMPORTANT SOURCE

Canada has an important potential source of foreign currency in the form of war needs in the accumulated foreign assets of her citizens. All holdings in excess of \$1,000 are to be reported to the board, leaving it fully informed as to the total amount and character of such foreign assets and in a position to take appropriate action for purposes which are not essential.

The board's regulations in relation to security transactions and security import and export licenses, have had the effect of preventing the export of capital. It was contended, capital exports on a large scale would impair Canada's ability to obtain necessary imports and also, by depressing security prices in this country, would make it impossible for the government to do its war financing except at penal rates of interest.

DAMAGING BURDEN

Such rates would damage Canada's financial and economic position during the war and would have a damaging burden of unduly high fixed charges after the war was over. The amount of capital invested in Canada is no large only a small percentage surplus would be required to produce these effects, experts said.

Except in the case of funds brought into Canada after last Sept. 13 and invested in a new enterprise or development, foreign investors are, for the time being, unable to withdraw investment capital from Canada. Meanwhile, foreign exchange required for payment of interest or dividends upon all non-resident capital invested in Canada, or for maturing commitments to non-residents, officials stated, is being made available freely.

PRESERVE SECURITY

This policy, it was contended, will help to preserve the foreign income underlying security by mitigating the effect of war strains upon the Canadian economy. Certain exemptions from the board's general requirements have been provided for an extensive simplification of general procedure have been worked out which special restrictions allowed.

HINT IS SEEN

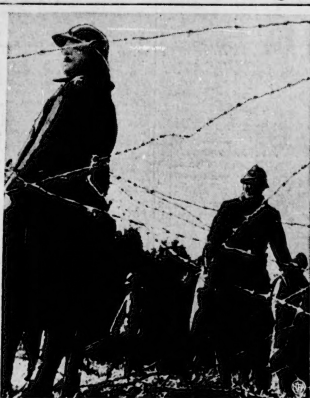

ITALIANS MAY JOIN ALLIES

PARIS, Nov. 10.—A plea to the French people to be loyal to the Catholic priest, Jean Cardinal Verdier, Archbishop of Paris, made French citizens wonder last night if he had indicated a hint that Italy might be brought into the allied camp.

"Let us be patient," Cardinal Verdier wrote. "We forget that if our armies come to be living in uniform, waiting, after less and less, and doubtless as effective as the Italian people, we shall be able to win the war."

"The Holy See has already proclaimed the right in the name of the Catholic Church to the peaceful friendship and growing peace and peace of peoples are being worked out which permit the highest hopes."

French On Alert For Offensive By Nazis

It and when Adolf Hitler orders a "blitzkrieg" on the western front, the French military expert barred war defenses like those being strung above, to slow down the "lightning war." They are easy reminders of the last Great War as effective aids.

Already entrenched in the Maginot line, French soldiers, above, would pick and shovel to dig into another trench.

High on the face of a cliff "somewhere in France" the French military has been dug out, from the rock to serve as command posts and points of observation. These cliff dugouts are a part of the French "preparedness" strategy.

B.C.'S THRONE DEBATE ENDS WITH WARNING

Closes With Admonition to C.C.F. Speakers On War Criticism

VICTORIA, Nov. 10.—Premier T. D. Pattullo Thursday brought to an end the British Columbia legislature's throne speech debate with a warning that Co-operative Commonwealth Federation members will not be permitted to repeat their earlier criticism of British and Canadian war policies.

"I can not stay in this chamber and tolerate such statements," he said quietly.

Mr. Pattullo's speech yesterday cleared the bluster for presentation of the Finance Minister John H. Macdonald's budget, believed to be in record for any finance minister in British Columbia.

WAR PARLIAMENT ISSUE

The speech from the Throne, which forecast the government's intention to ask for an appropriation to drill out well in the Peace River district of the province, was adopted without discussion.

Mr. Pattullo said that the parliament issue was successful termination of the war.

"This may not be obvious to those who view with tolerance the ruthless domination of foreign aggressors, but it is obvious to those who hold dear the individual freedom and liberty which we enjoy," he said.

It is a duty to have the impression that the C.C.F. seem to want to go as far as possible in condemnation of the British Empire and Canadian participation in the war, and in exculpation of Hitler and Germany.

PROTEST TOO MUCH

"I think they protest too much. One becomes suspicious of partial sincerity. I wonder if the policy of the C.C.F. to demand no war from Canada is not a part of a larger design as a special appeal to all of C.C.F. mind not to enlist."

Mr. Pattullo said the C.C.F. would "just drown" if it continued its protest.

"No member of this house after can go as far as some of the C.C.F. speakers without some feeling being taken," he warned. "We must win this war. Such statements as we have heard will be used as propaganda in Germany."

NOT GOOD ENOUGH

"We must neither say or do anything that will operate against the success of the war," he said.

The premier said the C.C.F. policy is "not good enough."

"I take the ground that we may all advocate that the government should go further in measures for

Canadians Will Pause Saturday to Remember Soldiers of Last War

By the Canadian Press

As Canada's 24th effort to prosecute the second Great War gains momentum, the Dominion will pause tomorrow to remember the soldiers who gave their lives in 1914-18.

Throughout Canada, members of the Canadian active service forces, now in training for the current struggle in Europe, will parade with veterans of the first Great War in observance of Remembrance Day, anniversary of the signing of the armistice. In all centres, two minutes of silence will be maintained starting at 11 a.m.

STANDING AT PEACE TOWER

At Ottawa, the Canadian Legion will hold a service at the Peace Tower on Parliament Hill. Prime Minister Mackenzie King and Lord Tweedsmuir, Governor-General, will be present. The service will be broadcast on the Canadian Broadcasting Corporation's national network from 10:30 a.m. to 11.

Halifax will see the usual parade of veterans of the army, navy and air force to the city's war memorial without discussion.

Stones will be placed in Saint John, Fredericton and Moncton as New Brunswick honors its war dead.

ALLIES SET IF NAZIS ATTACK VIA BELGIUM

BEHIND THE MAGINOT LINE IN FRANCE, Nov. 10.—The allied armies are confident that if Belgium, which is being justified, Germany will not repeat her initial success of the first Great War. The Canadian army will be given a hot reception if it marches through Belgian territory once again.

While no official information of the part the British forces may play is available, the Reuters news agency correspondent gathers it will be formidable, both in the air and on land.

There is every reason to hope any German we would be stopping before it gathered sufficient momentum to sweep through Belgium. If it cannot be stemmed, it will come up against a line of steel on the Franco-Belgian frontier which will surely break it.

Former President Of Cornell Dies Wednesday Night

NEW YORK, Nov. 10.—Dr. Livingston Farrand, 72, former president of Cornell university, died in hospital here Wednesday.

He had been president emeritus of Cornell since his retirement in 1937. From 1914 to 1919 he was president of the University of Colorado. In the years 1919-21 he was chairman of the central committee of the American Red Cross.

During the last two years of the first Great War—1917 and 1918—he was director of tuberculous work in France for the International Health Board.

Eden, Dominions Ministers Visit Paris For Talks

PARIS, Nov. 10.—Anthony Eden, British Dominions secretary, accompanied by the Dominion ministers who went to London for talks on Empire problems, visited Paris today. They are being met by Premier Daladier this afternoon.

Announcement of their talk was the first disclosure they were in Paris.

CANADA BEING COUNTED ON AS GREAT ARSENAL

By HAROLD FAIR

Canada Press Staff Writer

LONDON, Nov. 10.—Counting on Canada as a mighty potential arsenal, Great Britain has been keeping the Dominion posted on all manufacturing developments.

The director-general of munitions production told a press conference today that Canadian technicians had been here to study British plants and "went back with that knowledge."

Previously it had been stated the secret government production manuals had been made available to Canadian manufacturers.

The official described the Dominion as "a big potential source of production" and added that every one knew what the Dominion produced in the last war and felt it could do again.

GERMAN PLANE IS DESTROYED IN NORTH SEA

LONDON, Nov. 10.—The air ministry announced two British fighting planes destroyed a German aircraft today in the North Sea, off the east coast.

A second enemy plane escaped in the clouds.

LONDON, Nov. 10.—A German Heinkel bomber flew over the Shetland Islands north of Scotland today when it was shot down by a British fighter plane. The bomber was driven off by anti-aircraft fire.

Manion To Speak On War Reasons

OTTAWA, Nov. 10.—Conservative leader Manion will make an address Monday night over the national network of the Canadian Broadcasting Corporation on "Why We Are At War," it was announced last night.

The address will be from 6:30 p.m. to 6:45 p.m., M.S.T.

New York Times Declares Nazi Charge That Britain Bombed Hall Unwarranted

SCHUPBACH IS NOW CHARGED WITH MURDER

Change in Prosecution's Plans Result in New Statement

BIEL, Switzerland, Nov. 10.—A sudden change in the prosecution's plans Thursday resulted in a murder charge being laid against Ernst Schupbach who, with his wife, is on trial here for a series of crimes committed in Switzerland and Bay Tree, Alta.

Until yesterday's development, the principal charge against Schupbach was assault and battery on his 11-year-old stepson, Maurice Nicolet, causing the death of the child on a farm near Edmonton. This charge would carry a sentence of from five to 10 years upon conviction.

Mr. Schupbach would be liable to life imprisonment in solitary confinement upon conviction for the premeditated murder of her first husband, Paul Nicolet. Now her husband faces an equally serious charge.

The prosecutor also said Schupbach would be accused of impairing the morals of a minor. On the Schupbach's return from Canada, where they went in 1935, Yvonne Nicolet, his stepdaughter, sent a letter to the authorities accusing her stepfather of attacking her.

In testimony at yesterday's session Dr. M. Humbert who had the case under observation pending trial, said Schupbach is a "dangerous person" with a violent, jealous nature. He said the wife is in full possession of her faculties although her morals and mentality are of a low order.

The papal delegate said the award was in recognition of Pilot Basso's invaluable services to the church as a missionary pilot in the Arctic. He piloted the plane which took Mr. Antorini on an 18,000-mile inspection flight of the oblate missions in northwest Canada last summer.

The pilot is a native of Hull, Que., learned to fly at the Ottawa Flying Club and has been Bishop Breyer's pilot in the northwest for more than five years.

Members Of Air Missions Dinner Guests In Ottawa

OTTAWA, Nov. 10.—Prime Minister Mackenzie King presided over a three-hour session of cabinet council Thursday but no announcements were made at its conclusion. The Prime Minister and his colleagues were hosts last night at a government dinner for the British, Australian and New Zealand purchasing and air mission in Ottawa.

NEW YORK, Nov. 10.—The New York Times commented editorially today that the charge by the German press that Great Britain was responsible for the attempted assassination of Adolf Hitler was an "unwarranted assumption that the British government would stoop to the method of political assassination."

Detailing the tremendous difficulties of obtaining explosives in Germany and of installing them in such a well-protected place as the Munich beer hall where Wednesday night's explosion took place, the Times remarked this would require the active participation not only of Germans who are intimately familiar with every step in the process of Nazi officialdom, but of Germans who are in a position to give important orders and to cancel them. The paper added:

"Unless we assume that Hitler himself planned this extraordinary affair there is no possible explanation which does not imply at the very least the existence of a clique or a faction within the Nazi party willing to deal in treason."

The Herald-Tribune said: "It is almost terrible to think of the world-wide and appalling hate which this one man (Hitler) has concentrated upon himself."

NORTH PILOT GIVEN AWARD BY HOLY SEE

OTTAWA, Nov. 10.—Louis Basso, private airplane pilot of Bishop Gabriel Breyer, vice apostolic of the Mackenzie district, has been awarded the medal "Pro Bello El Pontifici" by the Holy See. It was announced last night by Mr. Idebrando Antonelli, papal delegate to Canada.

The papal delegate said the award was in recognition of Pilot Basso's invaluable services to the church as a missionary pilot in the Arctic. He piloted the plane which took Mr. Antorini on an 18,000-mile inspection flight of the oblate missions in northwest Canada last summer.

The pilot is a native of Hull, Que., learned to fly at the Ottawa Flying Club and has been Bishop Breyer's pilot in the northwest for more than five years.

As of Jan. 1, 1939, 82 per cent of the state highway mileage was surfaced.

IN REMEMBRANCE NOVEMBER 11, 1918 - 1939

We shall not break faith.

Take up our quarrel with the foe:

To you from failing hands we throw

The torch; be yours to hold it high.

If ye break faith with us who die

We shall not sleep, though poppies grow

In Flanders' Fields.
